AMENDMENT

Dear Sir:

In response to the office action of June 7, 2001 please amend the following:

IN THE CLAIMS

1. (Amended) A rack which comprises at least one wire mesh panel comprising a first array of parallel wires and a second array of parallel wires, the wires of the first and second arrays being in transverse, angular relation and being bonded to each other at least at a substantial number of wire crossing points, said panel defining opposed parallel side edges which are substantially defined by first individual wires of said first array, and third wires respectively bonded to said panel and positioned parallel and adjacent to said first individual wires of the first array, said third wires being spaced from said first individual wires by crossing wires of the second array, in which a plurality of said wire mesh panels are connected together along said opposed, parallel side edges by a plurality of clamp members, which respectively enclose said first individual wires of the first array and the adjacent third wires.
